AMENDMENTS TO THE SPECIFICATION

Please replace the first paragraph, lines 1 to 10, with the following amended paragraph:

operatively connected to one or more movable bristle holders. A first movable bristle holder 36 is disposed at a first end of the head 20 21, wherein the first end is at the forward most point of the head 20 21. While the first bristle holder 36 is illustrated as circular in shape, other shapes can be utilized. Further, while the first bristle holder 36 is disposed at the first end of the head 20 21, it will be appreciated that it can be disposed away from the first end and other features, such as stationary bristles, might be disposed between the first bristle holder 36 and the first end of the head 20 21. The moving bristle holder 36 and the shaft can be interconnected using structures known in the art, such as shown in US patent no. 6,178,579. A second bristle holder 38 may be disposed adjacent the first bristle holder 36. The second bristle holder 38 may also move or could be static or fixed.
